

Akshay Patwari

TECHNICAL PROJECT MANAGER

Bengaluru, India | +91 91642 91810 | akshaypatwariap@gmail.com

LinkedIn: <https://www.linkedin.com/in/akshaypatwari/> | Portfolio: <https://akshaypatwari.me/>

Objective

Technical engineer and team lead with **8+ years** of experience delivering end-to-end software projects across **Java microservices, AI platform, banking, and insurance domains** — combining deep technical depth with proven **project and delivery management** practice. Experienced in **defining scope, timelines, milestones, and resource plans**, managing **cross-functional stakeholder communication**, driving **solutioning and estimation**, and overseeing **CI/CD and cloud deployment activities** across Agile delivery teams. Led a team of six engineers as technical lead at Samsung, owning architecture decisions, risk management, and end-to-end delivery accountability. Brings hands-on background in **Java / Microservices architecture, AI-driven development (LLM, LangChain, LangGraph)**, and cloud-native infrastructure — enabling meaningful technical contribution alongside project governance to drive continuous improvement in delivery processes.

Skills

- **Programming Languages:** Java 8-21, Angular 17
- **Frameworks:** Microservices, Spring Boot 3, Spring JPA
- **Tools & Platforms:** Git, SVN, Bitbucket, Jira, Keycloak, NiFi, Docker, Nexus, RabbitMQ/Kafka, Redis, Agile, CI/CD (Jenkins, SonarQube)
- **Databases:** MySQL, Oracle, MongoDB
- **Interpersonal:** Leadership, Problem Solving, Decision Making, Communication across geographies
- **Others:** GenAI/LLM (LangChain, LangGraph)

Professional Experience

Samsung Electro-Mechanics — Software Engineer (CL3) / Staff Engineer

February 2022 – Present

PADO Platform

- As **technical team leader, managed six developers** — defined feature scope, architected solutions, coordinated timelines and milestones, conducted code reviews, and ensured client satisfaction through effective cross-functional communication and problem-solving, translating business requirements into technical deliverables in an Agile environment.
- Participated actively in **solutioning, technical discussions, and estimation** with architects, developers, QA, and DevOps teams — collaborating across functions to deliver complex platform features including multi-cluster Kubernetes deployments and SSO integration.
- Oversaw **CI/CD pipeline discipline (Jenkins, Maven, Git, Docker)** and cloud deployment activities — build, test, and release automation across environments, tracking progress and providing regular updates to leadership with structured release management.
- Developed and deployed scalable **Java 21 / Spring Boot 3 microservices** with Apache Kafka for high-throughput event-driven pipelines, ensuring SDLC best practices, security, and quality standards across the platform.
- Leveraged **Kubernetes** orchestration to manage containerised applications, ensuring high availability, scalability, and resilience across diverse deployment environments.
- Integrated **AI-driven development** practices by hosting and leveraging an in-house LLM within the platform — driving AI-assisted productivity across the engineering team.
- Implemented robust **Single Sign-On (SSO)** using Keycloak (OAuth2/OIDC) integrating securely with Kubeflow, Grafana, Jupyter notebooks, and Docker.

Oracle Financial Services Software Ltd — Technical Staff Consultant

August 2021 – February 2022

- Developer on the **Flexcube** application (banking). Module-wise code analysis and building **PL/SQL** packages, functions, and procedures.

- Developed data-based fixes in production with PL/SQL cursors and SQL queries.

Chubb International (Cognizant) — Programmer Analyst

February 2019 – August 2021

- Developer on the **Masterpiece Application** (Policy Builder Tool); delivered client-required changes with clean execution and technical depth.
- Developed an additional feature (efficient walk-back handling code) required by the business, and suggested innovative improvements and future fixes.

Agrainz Solutions — Trainee Software Engineer

February 2018 – August 2018

- Intern on two products: Agrainz and Zedua.

Education

MVJ College of Engineering — Information Science and Engineering, 2017

Achievements

- **Leading a team of 6 Java developers (January 2024 – Present):** Java technical lead and associate team lead within the organisation, ensuring project milestones were met while maintaining high quality standards.
- **CSR event — training on latest technologies:** taught higher-secondary students about the latest technologies in the software industry.

Awards

- **Best Trainer in Java (February 2023 – December 2024):** recognised for conducting technical trainings within technical teams in the organisation.
- **"Doing the Right Thing, the Right Way" (December 2020):** awarded at Cognizant for constant client interaction and implementing necessary changes and suggestions.
